## PROFILE

---

Informatics graduate and Full-Stack Web Developer with a strong background in UI and Graphic Design. Experience in building responsive web applications, database architecture, and digitalizing manual workflows. Combining technical skills in Laravel (PHP), React, JavaScript, and MySQL, I focus on creating digital products that are not only functional but also visually balanced and aesthetically pleasing. A continuous learner with a strong dedication to data integrity, system efficiency, and seamless user experience.

## EDUCATION

---

**Universitas Muhammadiyah Pekajangan Pekalongan**

*Bachelor's Degree in Informatics*

**Pekalongan, Indonesia**

Sep 2022 – June 2026

- **GPA** : 3.6/4.0

## SKILLS & COMPETENCIES

---

- **Office** – Microsoft Office Word, Microsoft Office Excel, Microsoft Office Powerpoint
- **Programming Languages** – HTML5, CSS3, Javascript, PHP, SQL
- **Frameworks & Libraries** – Laravel, React.js, Inertia.js, TailwindCSS, Bootstrap
- **Tools & Infrastructure** – Antigravity, VSCode, PhpMyAdmin, Docker, PuTTY, Laragon
- **Databases** – MySQL, MongoDB
- **Version Control** – Git, Github
- **Design Tools** – Adobe Photoshop, Adobe Illustrator, Figma, Canva

## LANGUAGES

---

- **Indonesian** - Native or bilingual proficiency (Fasih / Bahasa Utama)
- **English** - Basic Working Proficiency (Dasar / Pemula)

## PROFESSIONAL EXPERIENCES

---

**DINKOMINFO Kabupaten Pekalongan**

*Front-End Web Developer - Internship*

**Aug 2024 – Sep 2024**

- Observed the agency's administrative activities specifically within the E-Government division to analyze operational workflow efficiency.
- Processed observation findings into structured information to determine technical solutions and enhance digital system effectiveness.
- Designed and developed a responsive web-based application interface using the Laravel framework and Tailwind CSS according to institutional requirements.
- Conducted functional testing on the developed application to ensure optimal performance and minimize system errors before deployment.

- Conduct technical guidance and testing for the use of the Sirekap Recapitulation Information System application.
- Operate the Sirekap application to accurately scan, verify, and digitize voting result forms at the polling station TPS level.
- Resolve technical issues in the field such as file upload failures and AI OCR numerical reading discrepancies to ensure 100% data integrity.

## **LATEST PROJECT**

---

### **Internval - Internship Validation**

**Web App***Capstone Project***Tech Stack** – PHP, Javascript, Laravel, MySQL, TailwindCSS, Vite, AlpineJS, Filament

- Developed Internval a responsive web based platform to digitize and centralize the university internship application process transitioning from manual paper forms to an automated digital system.
- Designed and built a multi role dashboard with dynamic data handling to streamline cross department validation workflows and eliminate the requirement for physical administrative presence.
- Implemented an automated PDF engine integrated with QR codes to ensure document authenticity while providing real time application tracking for enhanced transparency.
- Served as Fullstack Web Developer, UI/UX Designer and Graphic Designer with full responsibility across user research interface styling database architecture core feature implementation and system verification.

### **Nutrizie - Nutrition Education & Prediction**

**Web App***Coursework Project***Tech Stack** – PHP, Javascript, Laravel, Inertia.js, React.js, MySQL, TailwindCSS, Vite, AlpineJS

- Developed the Nutrizie responsive web platform as a digital solution to reduce stunting rates by disseminating validated nutritional education and providing independent health screening tools for parents.
- Designed and built an automated nutritional status calculator system based on the medical standard Z Score method to simplify complex anthropometric calculations into instant and accurate growth tracking results.
- Implemented an admin dashboard to streamline educational content management and toddler data administration while ensuring flexible access to information anytime and anywhere.
- Served as Fullstack Developer and UI/UX Designer with full responsibility across interface research database design core feature development and functional system testing.

## **CERTIFICATION**

---

### **Test Of English Proficiency**

**Pekalongan, Indonesia***LPBK Universitas Muhammadiyah Pekajangan Pekalongan***Mei 2026**

- **Score** : 450/677
